Pure Pools, providing a warm pool throughout the year

With air temperatures still like summer, your pool is looking very inviting, but is the water temperature to your liking?

A titanium heat pump is the most reliable and ecological way to heat your pool. They are highly efficient and capable of heating your pool throughout the year to temperatures of 28°C, and above if required. The technology works by taking free heat from the ambient air and transferring it into the pool water, making them up to 600% efficient.

With the hot gas/reverse cycle defrost function, they will continue heating your pool even when air temperatures drop. This option comes

as standard when supplied by Pure Pools. This means they are very reliable in the cooler months.

In order to further lower energy consumption, maximize savings, and to protect the environment, we always recommend installing a cover to a heated pool. We supply a comprehensive range of bubble covers and automatic slat covers. The Automatic Covers also carry the French Safety standard NF P90-308 for child protection.

With over 20 years of experience we offer sound advice to our customers and provide

excellent back up and repair services.

Based in Lagos, Pure Pools are pool specialists that cover the whole of the Algarve. We provide a service which is second to none, supplying Spas; Pool Heaters; Covers and Safety Fencing etc. of the highest standard, as well as offering a swimming pool maintenance service. References available if required.

Decking and more from Bensons

Bensons Woodliving are celebrating their 5th birthday this October and have enjoyed a very busy 2015. 'We have worked on many exciting projects this year for both private and commercial clients. For inspiration for your home, visit our website to see our extensive portfolio of work.'

Decking was definitely on the agenda this year, with several clients wanting to use large areas of deck to transform their outdoor spaces. Bensons Woodliving have lots of experience working with deck, on all kinds of terrain and can offer an appropriate design, whatever your budget.

Tropical decks like cambala and garapa, look rich and sumptuous in gardens or by pools. They make beautiful flooring in gazebos and can be used to create built-in seating to make the most of the space in a bespoke structure.

Composite decks are becoming increasingly popular, due to their hassle-free, virtually no maintenance promise. Composites combine recycled wood particles with thermoplastic, making it both environmentally friendly and highly resistant to harsh weather conditions.

Treated pine deck is usually earmarked for beach projects due to its resilience to the elements and low price but

there is no reason why it shouldn't become a familiar sight in any obliging garden. It makes a fantastic blank canvas for plants and furniture.

One of our favourite projects this year was a large decking and pergola project near Olhão. The owners needed to totally landscape their garden and pool area and wanted a look that was in keeping with their beautiful rustic home and industrial décor. We decided to use treated pine for its more natural and informal appearance.

It blended in perfectly with the Algarvian landscape and when used in conjunction with the modern pallet furniture that we made for the clients, the overall effect was quirky and stylish.'

If you need decking at your property, call Bensons Woodliving now for a quote or to arrange a site visit.

Your very own Hot Tub Heaven from GOOD LIFE SPAS

Now entering their seventh year of trading, Good Life Spas continue to go from strength to strength as the hot tub, spa and Jacuzzi professionals in the Algarve.

Their elegant show room on the main avenida in the heart of Almancil (200 metres from Apolonia supermarket, toward Faro) has 8 different models on display, along with a range of accessories to enhance your spa experience. And there's a private demonstration suite where you can take a dip in a "Top of the Range" Platinum Elite Dove Canyon spa and "Experience the Ultimate" in hot tub technology.

Director, Andy Coulton, said: "The Artesian Spas range (made in the U.S.A.) is being very well received by all our customers, due to the fantastic build quality and tremendous selection of models available - And for a limited period we are offering some great discounts on all show-room stock spas to make way for new models."

Andy went on to say: "There is no doubt that our commitment to after-sales service, with our unique Total Care package, is also very reassuring to our clients. And our ability to obtain spare parts

for most makes and models of hot tub, spa and Jacuzzi throughout the Algarve means we continue to get busier, with servicing for owners of all brands."

So if you're considering the benefits of spa ownership or need help with your existing

Jacuzzi give Good Life Spas a call on either, tlf: 289 358 415 / tlm: 913 922 806 or visit their website at: www.gls spas.com.

RIALTO - GREY

Casa Têxteis/Home Textiles have all you need if you are thinking of giving your home a makeover without spending an absolute fortune. Any slight change in home decoration can have a big impact in a room, just changing cushions, curtains, bedlinen or even simple changes in a bathroom with some bright coloured towels.

When decorating your home it's good to have a plain background and accessorise around it with textiles, ornaments and pictures, this makes it really easy to change colours and you can always recycle your existing one's to another room in the future.

Two main colours that feature highly in our new Autumn / Winter collection are grey and red they are very on trend this year. Our new curtain additions are large check designs such as the Balmoral, bold stripes like Melrose or subtle self embossed dove grey like Somerford. Rialto is a very classy gorgeous faux silk with a horizontal leaf design border just below the top of the curtain and comes in either grey or beige. All curtains have co ordinating cushions to finish your look and some are available in other colours. Our duvet covers also have hints of grey being a big colour this season with the Genova self coloured fine satin stripe sets available in white, cream or silver grey.

Following the red and grey theme these are the two new colours also being added to our extensive range of 600g Egyptian towels. All the new collection will be in stock from around 24th September.

MELROSE STRIPE - RED

GENOVA - SILVER

SOMERFORD - DOVE

BALMORAL CHECK - RUBY

email: hometextiles@sapo.pt

Linen comfort and beauty from Casa Têxteis

We are also adding to our extensive selection of curtains and cushions with a new duck egg colour in our very popular Palm design lined curtains. Other new curtains are Woburn and woodland in subtle greys and creams, and Balmoral which is a very on-trend large check on a cream background and available in 3 colours.

New to our duvet cover and pillowcase range is Genova, a lovely, very fine self-coloured satin stripe design that comes in white, cream or silver grey. Silver grey and red feature a lot in

our autumn/winter collections they are also the two new colours that are going to be added to our fantastic range of 600g Egyptian cotton towels.

Already in stock is our gorgeous luxury 300TC cotton sateen D&P Oppulent brand of sheets, pillowcases and duvet covers available in 5 colours. This is a new addition that fits really well between our 200TC and 400TC cotton Belledorm brand sheets, duvet covers and pillowcases. It has taken us a while to find good cotton superking pillowcases but now we also have these in white or cream in the D&P 300TC brand.

Not forgetting that we have beds of various sizes in Portugal, we also have lovely 200TC soft spun 200TC cotton sheets and pillowcases (only available in white) and 6 colours in our budget cotton sheets and pillowcases in European bed sizes.

For excellent quality and price our mattress and pillow protectors are unbeatable and available in both UK and European sizes.

We are always asked for plain coloured quilted bedspreads and we now have a lovely set in stock including pillowshams at a really good price in 6 colours and available in sizes single up to superking.

Panema is part of a new range of simple easycare washable bedspreads in blue, silver, mocha or lime with a silver circle design and lovely chenille finish available with matching cushions to give a great contemporary look. Seville is part of the same range but with a fine chenille stripe also in colours, blue, orange, black and mauve with matching decorative cushions.

You can email or telephone us for a quotation :-

For more information, please see our advertisement on page iii.

After a very successful summer Casa Têxteis/Home Textiles are looking forward to lots of new products for autumn and winter with a delivery of feather and down duvets and pillows imminently, and our superior dual control electric blankets will be in stock before the end of October.

Handy Household Tips - Nº1

To prolong the life of cut flowers, cut an inch off the bottom of the stems and place in water within 13 seconds (prevents inhalation of air). Adding a little bleach to the water will preserve your flowers longer, because the water is cleaner. Change the water regularly.

Toldolanda Lda - much more than just an awning!

With Toldolanda's shade, sun, rain and wind solutions, home improvements could not be more simple.

Let the sun shine, let the wind blow, let it rain, let the temperature go up, or down, Toldolanda's Biossun bioclimate pergolas allow you to enjoy your outdoor space longer.

This unique concept in pergolas regulates the temperature of your patio and house naturally while protecting you from bad weather and the sun's rays.

Toldolanda's Biossun bioclimate pergola is the ultimate addition to outdoor living. It is a patio louvre roof!

pergola system that is waterproof and adjustable with rotating louvres to provide year-round sun, wind and rain protection. Exclusively sold in the Algarve by Toldolanda. With an array of different options and accessories with this roof we recommend you get in touch with our team to find out more.

Would you like to keep the sun out of your house and the daylight coming in? We have a blend of designs in retractable awnings and interior blinds.

Handy Household Tips - Nº2

To clean drains, put 1 tablespoon of baking soda down the sink followed by 2 tablespoons of vinegar, and let stand for 15 minutes, then flush with hot water. To unclog a blocked drain, try using a cup of salt mixed with a cup of baking soda - no liquid. Pour the dry solution into the drain, followed by a pot of boiling water.

Salagua – make a splash with a state-of-the-art pool

Salagua Ecological Pool Company was started in 1995 in Santa Barbara de Nexe with the objective of introducing “chemical-free-swimming” to Portugal.

Salagua Lda obtained the exclusive marketing rights to the revolutionary Australian self-cleaning Salt Water Pool Systems Ecomatic and Prommatic, invented and manufactured by Monarch Industries from Perth in Western Australia.

Salagua Lda was offered the exclusive agency for KVS-Klimatechnik from Stutt-

gart, Germany, back in 1998, to retail their up-market range of highly efficient and silent heat pumps for pool and house heating.

Over the past two decades many more manufacturers of high quality pool equipment followed, most notably Campana Poolroofing and Grando Automatic PoolCovers, both market leaders in their field.

It is our aim at Salagua Lda to find top quality pool products worldwide and bring them to our clients in Portugal.

The best equipment money can buy paired with excellent service to ensure a lifetime of hassle-free pool fun.

Many of our quality pool products can even be viewed in operation at our Salagua Pool Centre. We also have a policy of ‘Try before you buy’, so there is no compromise when visiting us on the EN125 just outside Almancil.

Our multi-lingual staff will do our utmost to speak your language.

Salagua also offers a free advisory service, which means you are free to call us before building your pool and we can aim to provide expert advice on the best way forward.

We are looking forward to your call or email.

EN125, Sítio do Troto, Almancil, Tel 289 992 281, salagua@salagua.com, www.salagua.com

Enjoy your property all year round with M2M Blinds

With winter fast approaching, people are now turning their thoughts to colder nights, and indeed days, and bigger electric bills.

Firstly the biggest form of heat loss is through badly insulated, incorrectly installed Windows and doors, creating cold draughts and allowing heat to pass out. M2M can replace your windows and doors for a German UPVC system Kommerling that is manufactured in Spain.

Not only will you have the best quality windows, the glass can also help with heat loss. Planitherm glass and argon gas-filled units will help you to keep the heat out in the summer and keep the heat in during the winter saving on electricity/heating all year round.

Also on offer, laminated security glass with double security locks for the windows and doors. With M2M they let you decide on the end product be it standard glass and standard locks or maximum specification.

M2M can also help you enjoy your outside space during the winter months by installing glass curtains in your covered areas making another usable room all year round. You can open them all up in just a few seconds or leave

them closed, just opening doors to create a through breeze. Glass curtains can also be used as a windbreak to stop the colder northerly winds.

If it is heating the property in certain areas that is the cause for concern, maybe economic electric radiators from Fondital Italy is the answer. They are easy to install, maintenance-free and have a smooth design. All are programmable on a 24hour 7-day s-a-week basis or you can simply set them to a

certain temperature. The radiators have a built-in humidifier so the air does not dry out.

Please do not forget M2M's range of stunning internal window blinds, awnings and mosquito screens they can really help you enjoy your property all year round.

Visit their website for more details. www.m2mblinds.com

Handy Household Tips - Nº3

Save money by buying the least expensive dishwasher powder, then add a few teaspoons of vinegar to the dishwasher. The vinegar cuts the grease and leaves the dishes spot-free and sparkling. And if you need to deal with a scorched pan, fill it halfway with water and 50 grams of baking soda. Boil for 10 minutes and the burnt food will loosen and float to the top.

Your safety and security

IBC Security continues to build on its excellent reputation as one of the leading Security Companies committed to safeguarding home owners and businesses throughout the Central Algarve.

Unfortunately crime and personal safety concerns remain an ever-present worry to all who live, work and invest in this beautiful part of the world.

IBC Security remains extremely focused on the high standards that it sets itself and the levels of service and confidence that it provides to its ever growing and much valued client base.

The unique approach IBC adopts towards safeguarding its clients and their properties

differs from many of its competitors. Fully trained IBC Fast Response and K9 Teams constantly patrol local areas and communities 24/7 with the primary objective of helping to prevent theft and criminal activity by providing a highly visual and physical deterrent. Once an alarm activation or emergency is received within its advanced Central Monitoring building located within the heart of the Central Algarve, these teams are **Immediately** dispatched to attend.

Equally alert to any other emergency that may occur during their patrol, the teams are on call to respond and assist any IBC Client who has reason to call the unique IBC 24 Hour emergency helpline.

Helping to strengthen the deterrent factor, IBC operates a highly trained K9 Team of Belgian Malinois and handlers working alongside its Fast Response Units enforcing the Company's message of a no-nonsense approach to the protection of its Clients, their families and properties.

A trained team of IBC technicians and Sales people are on hand to help and assist with any specific Security request whether that be a new installation, takeover and servicing of an existing alarm, CCTV or security structure or just simple **free** general advice.

IBC are to launch its new generation of **Guardian** devices which offer faster connection, fall detection, 10-day battery stand-by life, easy charge, waterproof, improved GPS location, enhanced microphone and speaker structure. In addition, **Guardian Watches, Kids Guardian Watches and Pet Trackers** are also about to be launched.

If you are interested to know how IBC Security may be able to help you or someone you know then please feel free to contact the office at any time. Tel 289 093 344, www.ibcsecurity.com. Please see our advertisement on page xvi.

Snuggle up this winter

Linen etc. have the best and biggest supply of bedding, towels and contemporary home decor for the lounge, dining room and bedroom in the Algarve.

When the weather changes in the Algarve layering becomes more important. We have a wide range of statement throws, blankets and bedspreads that are great for extra warmth as the nights become chiller. So if you want to warm up the bed, snuggle on the settee and add a touch of class to your rooms, Linen etc. have a big choice, in store and on line. (www.linen-etc.com)

The look, as well as the feel, of your bed linen is important. We have ALL sizes of bedding in white, all our fitted sheets are extra deep to fit all beds and wash at 60. We now have an extended choice of quilt sets too, to add colour.

Tencel or Coolmax bedding products are designed for year round comfort, in warm or damp weather, in a range including toppers duvets & pillows at exceptional prices.

Whether you are choosing for your home, your second home or a rental property, we have the choice, value and quality. Our products come in

3 ranges

"Essencial": ideal for home or rental properties. 180 thread Poly Cotton Percale & 500 gram towels, long-lasting practical products at great prices.

"Comfort": ideal for home, rental & second properties. 100% cotton 200 thread bedding, 550 gram towels, adding comfort to you and/or your guests. Affordable & durable.

"Deluxe": A range for home & second properties. 100% cotton 300 thread bedding, 650 gram towels. A touch of luxury, at prices that the best & biggest department stores in the UK cannot beat.

Our 3 ranges extend to our protectors, a choice of 8 pillows, 3 duvets types, 3 toppers, hundreds of bedspreads, curtains, cushions and throws. We also have a range of lights, rugs and curtain poles to complete the look.

Simply-Screens

Discreet, retractable, pleated mosquito screens to enhance the comfort of your home!

The aim of SimplyScreens is to provide its customer with a superior, top quality, high end product at a competitive price. Backed by an informed, highly professional sales team with fully trained and experienced fitters, the service we offer guarantees a quality, efficient, clean and punctual installation with excellent Customer Service.

Retractable, pleated screens are offered in a wide range of colours and styles to blend into your existing property's colour schemes and designs. The unique design of the 'PLISSE' screens allow them to retract when not required, but come into play at a moment's notice when fresh air - not

insects - is needed in your home.

They can be fitted anywhere in the home, requiring minimal space to install, but adding both comfort and value. The innovative design, installed in thousands of homes worldwide, is the 'solution of choice' for interior designers, builders, architects - and importantly -

people like you, who appreciate your home and all its comforts.

Want to discover how flyscreens could transform your home? SimplyScreens offer a free, friendly, no-obligation visit to your property (be it a flat, townhouse or villa), during which they will discuss the types of screen available, complete a full site survey, and help you to choose the right screens for your home, along with providing a no-hidden-fees quote.

To arrange your free consultation or for more information, call the SimplyScreens team on: 282 798 080, drop them an email at: info@simply-screens.com or visit: www.simply-screens.com. We're also offering an amazing 10% winter discount for a limited time - Just mention 'Promo10'!

The team look forward to chatting with you soon.

Algarve Home Improvements – all your renovation needs

Established in 2002 by Carl Rotherham, Algarve Home Improvements covers all property renovation needs, using new and innovative products that are ideal for solving problems specific to the Algarve.

This includes a cement overlay system that can be used on floors and walls, which is imprinted and coloured to give the appearance of natural stone.

The company also uses a micro-cement system that can be applied to interiors and exteriors, along with specialist renders, waterproofing membranes and long-life paints.

Algarve Home Improvements further offers a solar-powered air heating ventilator, which was a new introduction in 2013 and combats damp and mould growth as well as warming the interior air of your property.

Father-of-three Carl established Algarve Home Improvements from his own experience and after working for a number of years in Spain. He decided to set up the business, which is based in Paderne (Albufeira), in the Algarve after moving there and falling in love with the beautiful climate and friendly people.

Covering the Algarve from

one end to the other the company aspires to offer the best possible quality, personalised customer service and have notched up many satisfied customers whose recommendations are extremely important to them.

All of Algarve Home Improvements' technicians have undertaken full manu-

facturer-accredited training for the products they use. This training is constantly upgraded to keep up with new technologies.

For more information email: algarvehomeimprovements@gmail.com, or phone: (+351) 914 996 532, from 8am till 6pm, Monday - Friday.

Aqua Pura
Pool Cover Specialists
SINCE 1989

An evergreen investment

What can you buy nowadays that's long-lasting, needs almost no maintenance and helps conserve natural resources? You might find the answer surprising, but these are the virtues of high-quality synthetic lawns from *Grasshopper Greens*.

In business since 2005, Grasshopper Greens was established to introduce top-quality synthetic putting greens to the Algarve golf market. Deceptively realistic, these closely replicate the playing characteristics of natural greens to offer a constant-use practice facility. Having gained an unrivalled reputation for quality work, in 2014 Grasshopper Greens were contracted to install the prestigious *Pro Putting Garden*, a 27-hole mini-golf visitor attraction in the heart of Lagos, aimed at novices and seasoned golfers alike.

Yet the golf market is nowadays just one area of specialism, as the company now offers a wide range of synthetic grass products designed for specific surfaces - tennis courts, 5-a-side soccer pitches and croquet lawns. And in more recent times, the business has broadened still further to encompass all manner of

home applications - lawns, patios, roof terraces, verandas, pool surrounds, even safe play areas for kids.

Company director Martin Edwards explains: "In the Algarve environment, where lawns aren't naturally sustainable, where water conservation is a growing issue and water bills are rising steeply, many homeowners are looking at the long-term savings offered by synthetic lawns. Indeed, landscape lawns nowadays account for the majority of our installations, bringing a realistic, lush and beautifully manicured aspect to all kinds of outdoor areas, requiring minimal maintenance - and of course no watering!"

Grasshopper Greens only uses the finest-quality products on the market, from Dutch and German manufacturers, offering the most advanced fibre technology. Martin underlines this necessity: "All too often I have seen the problems that occur with cheap products

on the market, usually from the Far East. I completely avoid these, and the products I offer carry an 8-year warranty plus a 5-year installation guarantee from Grasshopper Greens."

The company prides itself in being the longest-established, and one of the only specialist synthetic grass companies in Portugal, with a professionally-trained team of installers, now with fully 10 years' experience and expertise. They offer a complete design & installation service of their product range; or alternatively can also sell synthetic lawn direct 'off-the-roll'.

Martin concludes: "The Grasshopper Greens team takes absolute pride in delivering a first-class service: the best products, the highest quality workmanship - and an evergreen investment." For more information, Tel: 910365071 or 289 093 387, email info@grasshoppergreens.com or visit www.grasshoppergreens.com.

Let there be light

Caza Lux, located in Lagos, specialises in perfect lighting solutions for homes and businesses and brings 14 years of experience in the industry to help every client to meet their lighting needs.

At Caza Lux, it is the mission of the team to provide every customer with a full range of lighting options, suitable for every type of

space. The perfect lighting can help to not only transform a room but can also help to save energy and keep costs down. In April 2014 Caza Lux

revealed the new image and concept of the company after establishing a partnership with the prestigious EGLO lighting brand. The EGLO brand creates products with

option is available, including all the very latest styles and trends.

Clients looking to update the look of the home can seek the advice of the professionals at Caza Lux who will be able to then advise on how best to use lighting solutions to refresh the feeling of an entire property through new design choices based on the existing décor and architecture of the home. Caza Lux also offers clients the opportunity to browse through pieces of works by local artists while finding lighting solutions.

Lighting for a business is equally as important as in the home and at Caza Lux retail lighting equipment is also available to provide companies with the most efficient lighting solutions.

Visit Caza Lux in Lagos and discover the perfect lighting solutions or explore some of the five hundred options available via their online store at www.cazalux.pt

an exceptional design, at competitive prices and is known for the very high quality of the products.

Not only does Caza Lux stock EGLO branded lighting products, the company also sells a range of national and international brands to allow the customer the widest choice possible in lighting.

Whether you are looking for indoor or outdoor lighting, contemporary or classic styles, at Caza Lux every

DecorPrincesa, bathrooms and spas fit for royalty

DecorPrincesa has been supplying bathroom suites and accessories to private individuals and the construction industry since 2004, forging partnerships with local companies and resorts along the Algarve.

DecorPrincesa supplies everything that is needed to keep bathrooms and spas running at their best.

Clients benefit from a high level of service, nothing is too much trouble.

They also promise to be there in those difficult moments and DecorPrincesa pledges to arrive when they say they will.

Come and visit our showroom and get to know the dedicated group of people behind DecorPrincesa and view some of the bathroom and spas on offer.

Design, innovation, modern, durability, quality, in whichever order of preference, define the products on offer at DecorPrincesa.

We also work with some of the best and most prestigious brands in the sector and we can adapt to any preference in order to satisfy any taste or design.

Ranging from baths, showers, shower cubicles and bases, toilets and bidets, to taps and faucets, mirrors and bathroom furnishing and indoor and outdoor spas and mosaic tiles for pools and wet rooms,

DecorPrincesa is your one-stop store for excellent quality and classic or contemporary designs tailored to your own specific needs.

Alternatively, you can call us to arrange a meeting in order to take a look at their latest catalogues and receive expert advice.

DecorPrincesa is located on the EN125 at the entrance to Almancil and can be contacted by calling: 289 395 752 or mobile 919 092 443 or via email at:

decorprincesa@sapo.pt.

Handy Household Tips - Nº5

FABRIC INTERIOR OF YOUR CAR: Use baby wipes to remove marks. Even the long-term stains will come off. Really! Place a roll of fabric softener sheets under the seats (apple and lavender are particularly nice). The diversity and staying power of the scents are great and they work better than expensive car deodorisers.
